

Shipyard Resources

Orisson Shipyard is a subsidiary of Bullion Offshore Contracting Ltd. We do Ship building, Conversion and Repairs. We work with highly skilled hands. We dock vessels up to 2,000 DWT. For higher tonnage we use partner yards. We manage vessels. We also have technical partnerships with oversea component manufacturers for spare parts.

Accommodation Ladder Fabrication & Repair

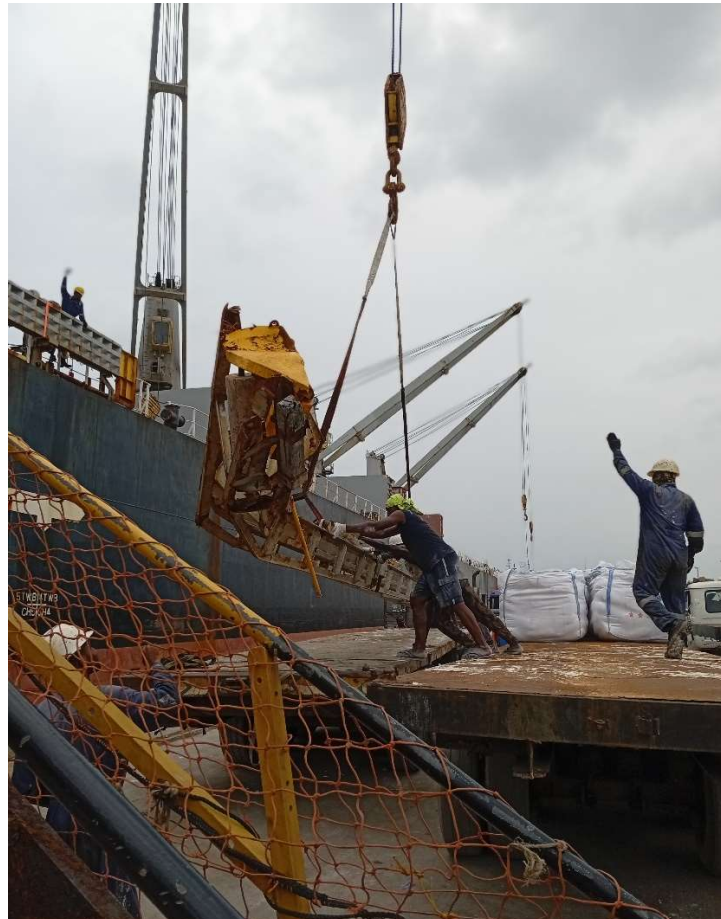

Accommodation ladder problems can range from accident deformation to damage from deep corrosion. We have the experience and capability for both building new ones and replacement of unserviceable accommodation ladder, including repairs and sectional replacement of damaged sections of accidented accommodation ladders. Project Experience case is:

Client: Eleen Marine

Vessel: Eleen Armonia

Scope: Sectional replacement of damaged part of accidented Accommodation Ladder. Repair of turntable, replacement of handrail and stanchions.

Offloading of damaged accommodation ladder from the Ship while ship is docked in port and is offloading cargo in Port. Picture is the loading of ladder on truck

Damaged Accommodation ladder was trucked from Ship in Port to workshop for repairs.

Cut off damaged part. Fabrication of new section

Return of rebuilt accommodation ladder to ship.

Boat Landing Fabrication & Repair

We can design and fabricate Automatic boat landing system with simple and efficient controls which does not need any crane to deploy or retrieve it in operating position. Our boat landing design has the options of integrating capsule lift. Our solution can be done in new build ship/rig and offshore installation or replacement of old boat landing already in service. We can also refurbish old ones to it initial status. Installation can be done on the ship while anchored at our shipyard, in port or at the client's preferred location.

Boat landing design

Our boat landing design incorporates retractable fall arrester and modular sections for ease of transport from shipyard to installation site location.
